

Blazing Fast. Super Secure. Easy as Pie.

TitanFile is the easiest and most secure way for professionals to share files and collaborate with clients and colleagues.

As a professional, you need a secure and compliant way to exchange confidential files and messages.

You want a single solution that's robust enough to handle all your use cases. Something that can support all file types and sizes. Something you can use every day because it's blazing fast and as easy to use as email. Something that can provide you with unparalleled security, control, and auditability. Something that will give you and your clients **peace of mind.**

TitanFile is that solution.

Over **200,000 professionals** in the legal, government, healthcare, finance, and accounting industries trust TitanFile to maintain the privacy, security, and compliance around the confidential information they share.

Let us help you do the same!

How TitanFile Helps You

- ✓ Send secure emails and large files
