

Your Privacy and Confidentiality is Our #1 Priority

TitanFile has an 11-year track record of improving security and compliance in law firms by providing them with the most secure and efficient way to share confidential information.

The platform is built to give you and your clients peace of mind. Equipped with the best-in-class security features and voted the most secure file sharing platform among publicly-available security rating websites.

TitanFile has become the **New Standard** in secure file sharing today and is trusted by top Am Law firms.

Infrastructure Security

- ✓ Infrastructure complies with industry standards such as ISO 27001 and SOC 2 Type II
- ✓ Data centers are tightly controlled by perimeter fencing, security officers, and 24/7 video surveillance
- ✓ Data is frequently backed up to protect against environmental threats and hardware failures
- ✓ Routine data center risk assessment activities are performed to mitigate potential vulnerabilities

Data Security

- ✓ Choose between data residency in the United States, Canada, or Europe
- ✓ Configure your own data retention policy for files and messages uploaded to TitanFile
- ✓ Set expiry dates for secure workspaces created in TitanFile
- ✓ Easily revoke access to files and messages that have been previously shared

Data Encryption

- ✓ All communication between client and server is performed over a 256-bit TLS 1.2 connection
- ✓ Data is encrypted and stored in ISO-certified AWS and Azure data centers
- ✓ Choose between managing your own encryption keys (CMK) or using vendor-managed encryption keys

User Authentication

- ✓ Enforce custom password policies for staff and recipients
- ✓ Configure two-factor authentication (2FA) via SMS, email, or authenticator apps
- ✓ Integrate with your Single Sign-On provider for staff authentication

Role-Based Access Controls

- ✓ Configure advanced sharing permissions by role in the organization
- ✓ Control who can view, upload, and download files, and access folders in a secure workspace
- ✓ Easily revoke access to uploaded information

Audit Trails & Reporting

- ✓ Access comprehensive logs that show time-stamped records around account access and file sharing
- ✓ Export data and history reports in Zip, PDF, and CSV formats in a single click
- ✓ Get proof of access and proof of delivery

Software Security

- ✓ TitanFile incorporates security testing into each stage of its Software Development Life Cycle
- ✓ TitanFile developers implement security recommendations from the OWASP Foundation

Organizational Security

- ✓ Access to any systems and networks is continuously monitored and logged in a centralized system
- ✓ Employees are only provided with access based on the Principle of Least Privilege (POLP)

Compliance and Attestations

- ✓ ISO/IEC 27001:2013
- ✓ ISO/IEC 27018:2019
- ✓ HIPAA
- ✓ PHIPA
- ✓ PCI DSS
- ✓ ISO/IEC 27017:2015
- ✓ SOC 2 Type II
- ✓ PIPEDA
- ✓ GDPR
- ✓ WCAG 2.1
