

## The New Standard in Secure File Sharing

**Trusted by Am Law Firms, TitanFile is the one-stop shop for all file sharing use cases in law firms.**

**Law firms choose TitanFile because it is the most secure file sharing solution on the market with reliable lightning-fast upload speeds for large file transfer and robust capabilities to meet the business needs of the legal market!**

TitanFile's intuitive self-serve user interface enables attorneys and support staff to easily send and receive clients to and from clients, opposing counsel and service providers. With a feature set designed specifically for the legal market, TitanFile's core capabilities cover the major uses cases including secure ad hoc file sharing, large file transfers, and client portal access.

Am Law firms choose TitanFile because it achieved the highest security rating among all file sharing solutions on the market, state-of-the-art security controls, and customer managed encryption keys coupled with externally validated audits including SOC 2 Type II and ISO 27001.

**TitanFile is enterprise-ready, it is the winning solution.**

### How TitanFile Helps Law Firms

- ✓ Send large files and folders at lightning-fast upload speeds of up to 150Mbps
- ✓ Handle all ad-hoc file sharing use cases through a secure platform
- ✓ Enable clients to upload files securely through a client portal
- ✓ Gain access to detailed audit trails around files shared
- ✓ Comply with industry standards such as SOC 2 Type II, ISO 27001, and HIPAA

"The TitanFile team was excellent in ensuring that we had a smooth transition onboarding 1200 employees. When we initially introduced the product to our employees, they found the platform easy to access, easy to use, and reliable. The positive feedback from our staff convinced us that TitanFile was the solution for us."
